How to Play

The player would pay \$0.50 for the ticket and then open the 3 windows on the backside to reveal the symbols. If the symbols inside the ticket match the winning combinations on the front, they are a winner. Pay all instant winners as tickets are opened and redeemed. All instant winners will have a magenta "WIN" printed across the symbols and will also have a starburst in one of the windows stating the total amount won.

Hold Ticket Instructions

Horse Play also has 2 sets of holders, horses numbered 1-15 and full color bingo numbers B1-O75. Each set of holders is identified by having the text "HOLD" on the ticket.

The players with the colored bingo holders retain their tickets for a chance to win one of two "bingo event" prizes of \$250 and \$100. The first number drawn wins \$250, the last number drawn wins \$100.

Once the game is sold, the operator will draw the two correct balls (first and last numbers) to determine the two bingo event winners.

The players with the numbered horse holders retain their tickets for the chance to win \$250.

The horse winner is determined by the first vertical row to be called on the bingo board. The winning horse number corresponds with the number of the winning vertical row (for example, for horse #9 to win, the numbers B-9, I-24, N-39, G-54 and O-69 would be called prior to all numbers in any other vertical row to be called). There will only be 1 horse winner. The numbers are called until a vertical row has been filled.

This game may be played with any bingo game. In the event that a "bingo" is called prior to a vertical row being filled, the caller should continue to draw bingo balls until a single vertical row has been filled.

If the deal is not completely sold out, all bingo ball holders B1-O75 and all horse holders 1-15 will sign their name to a register sheet.
