**How to Play**

To play, the player would pay \$0.50 per ticket and then open the windows on the backside to reveal the symbols. If the symbols inside the ticket match the winning combinations on the ticket front, they are a winner. All instant winners have a Blue win-bar drawn through the symbols. There are no multiple winners. All instant winners have the cashier feature, which is the total winning amount. Pay all instant winners as tickets are opened and redeemed.

This is a standard bingo event game with instant winners and a single bingo event winner.

There is one set of holders, **Jockeys** numbered 1-15. Each one of the **Jockeys** is easily identifiable with the text "**HOLD**" on the ticket. The players with the tickets stating "**HOLD**" have a chance to win one "bingo event" prize of \$200.

Once the game is sold, the operator announces that the **Jockeys** game will be played on a specific upcoming bingo game.

The **Jockeys** winner is determined by the first vertical row to be called on the bingo board (i. e. for **Jockey 1** to win, the numbers B-01, I-16, N-31, G-46 and O-61 would be called prior to any other row being vertically called). The winning **Jockeys** number corresponds with the top number of the winning vertical row. It is only possible for there to be a single **Jockeys** winner. The numbers are called until a vertical row has been filled.

NOTE: The **Jockeys** game may be played with any bingo game. In the event a "bingo" is called prior to a vertical row being filled, the caller will continue to draw bingo balls until a single vertical row has been filled.
