How to Play

There are two elements in this seal card game. First, there are \$225 in instant wins within each deal. Second, four players that hold a red 13 ticket will be identified by opening the windows on sealcard 1. Those players will move on to sealcard 2 where they will open the number of pyramid

windows as indicated under the tabs on sealcard 1.

Players open five windows on the back of the ticket. Winning symbol combinations are identified on the front of each ticket. All instant winners are determined by matching three identical symbols.

There are also 18 "Hold" tickets that are identified by a number ending in a "Red 13" (numbers 013 through 1713, inclusive). Once all tickets in a deal have been sold, the operator will open the windows (labeled "Open 4 Windows", "Open 3 Windows", "Open 2 Windows" and "Open 1 Window") on sealcard 1. Each of these windows will have one of the red 13 numbers under it. The holders of those tickets will then move to sealcard 2.

The holder of the red 13 number under the Open 4 Windows tab will direct the operator to open four of the pyramid windows on sealcard 2 and will win the total amount of prize money identified under these four windows. Similarly, the holder of the red 13 number under the Open 3 Windows tab will have three pyramid windows opened, the holder of the red 13 number under the Open 2 Windows tab will have two pyramid windows opened and finally, the holder of the red 13 number under the Open 1 Window will have the one remaining pyramid window opened. The Open 4 Windows holder will select first, followed by the Open 3 Windows holder, the Open 2 Windows holder and finally the Open 1 Window holder.

Sealcard 2 has 10 pyramid windows. The prize amounts under those windows are 1 at \$300, 2 at \$100, 3 at \$50, and 4 at \$25, for a total of \$750 in prizes.
