## How to Play

Super Diamond Chest is a standard progressive seal card game encompassing hold tickets (which qualify for seal prizes) and instant win tickets.

To play the game, open the box and sell the tickets for \$0.50 each. The players will open up all 5 tabs on the back of the ticket. The game will have instant winners as well as sign up holders. The sign up holders are designated by numerals ending in (red and blue) 13's.

The instant winning symbols are displayed on the front of the ticket; the player has a winning instant ticket if the symbols on the front correctly match those displayed under the five tabs.

When an individual has an instant winner, they should be paid immediately upon redemption. All instant winners have the "cashier" feature, which is the total winning amount.

The instant winners are easily identifiable by red arrows or colored numerals.

### How to Play Seal Card #1

Once the game has been sold out, the operator will open both tabs on seal card #1 to determine the \$250 seal prize winners for the respective red and blue 13 holders. There are twelve red 13 holders designated by red numbers, 013-1113, and there are 12 blue 13 holders designated by blue numbers, 013-1113. Players holding tickets with these red and blue 13's are eligible to win the \$250 seal prize for their respective color.

### How to Play Seal Card #2

Additionally, each deal contributes \$250 to a red progressive jackpot and \$250 to a blue progressive jackpot. Once the winning red and blue 13's have been determined on seal card #1, each of the winners proceeds to seal card #2 and opens one window (1-24) in their respective section- the winning red holder opens a window in the red section while the winning blue holder opens a window in the blue section. Each section will have 23 windows that state "sorry" and one window stating "jackpot". If the players choose a window indicating "sorry", the \$250 rolls over to the next deal and the jackpot becomes \$500. Adding \$250 per deal to the progressive continues until a winning window is opened. When a winning window is opened, that player is awarded the entire progressive jackpot, and the next deal's progressive would start over at \$250.
