**House Way Pai Gow** is a new casino table game developed by New Vision Gaming. Players have the option of placing three Pai Gow bets along with three Bonus Bets. The game is dealt from a single standard deck of cards with a joker and can be played by up to 6 players on a standard blackjack-size table. The joker can be used as an Ace or to complete a straight, flush and straight flush.

As with traditional Pai Gow a 5% commission is charged to all winning Pai Gow bets. No commission is charged on any winning Bonus Bets.

House Way Pai Gow provides a game where no knowledge of the rules of Pai Gow Poker will be necessary to play the game.

Players have the option of wagering on three separate Pai Gow Poker hands as well as three separate Bonus bets. Players can only make bonus bets on hand(s) that they make Pai Gow bets on.

**To play the game**, players only have to choose one out of the three Pai Gow hands. Bonus Bets will be optional for the player to participate in. There will be three circles with the following names for players to place their wagers on, hand 1, hand 2, and hand 3. Each of the three pai gow hands will have a correlating Bonus spot representing each of the Pai Gow hands for each player to make an optional bonus bet.

**To start the game** players choose which number(s) they believe will be a winning hand. Players choosing to make a bonus bet must also place their bet(s) at this time.

After all wagers have been placed, the dealer will deal one Banker hand and three player hands. Both the Banker hand and the player hands will be arranged by the dealer using the casino's House Way of setting the cards to determine the winner. The Banker hand is first to be revealed and arranged according to the casino's House Way. After arranging the Banker hand, player hand number 1 will be revealed. Hand 2 and Hand 3 will repeat this procedure comparing their hand to the banker hand.

Players that have wagered on qualifying bonus hand(s) will be paid according to one of the following Pai Gow Bonus pay tables:

The hit frequency is 19.19%.

**A Summary of House Advantages**

Pay Table	A	B	C	D	E
House Advantage	6.00%	6.37%	8.41%	9.11%	6.39%

As in traditional Pai Gow Poker, the house advantage on the regular Pai Gow bet should be between 2.4% and 2.8%, depending on the house-way strategy.

House Way Pai Gow should enhance player appeal for Pai Gow Poker players where only even money payoffs are possible. For players who thrill at winning a large bonus award, the three bonus side bets should give them a chance to take a shot at it.

# HOUSE WAY PAI GOW

## Poker

*The object of the game* is for the player to choose a number representing a winning Pai Gow Poker hand. Players have the option to wager on one or all three Pai Gow hands.

A single standard deck of playing cards with a Joker will be used in dealing House Way Pai Gow.

*To start the game*, players need to select at least one of the three Pai Gow hands in order to participate in the game. Players shall place their wagers on any of the three numbered circles prior to the start of each round; this will indicate which hand(s) each player chooses to wager on.

Bonus bets are optional, and must be placed on the circle marked Bonus prior to the start of each round. It will be at the casinos discretion to allow players to make a bonus bet without placing a wager on the correlating Pai Gow Poker hand.

When all wagers are in place, the dealer shall deal three Player hands and one Banker hand to the appropriate spots on the table layout. All three Player hands will be compared to the one banker hand. Both the Banker hand and the Players hands will be set according to the Casino's House Way.

The dealer will first reveal the banker hand, proceeded by revealing Hand 1 of the players hand. Starting from the dealers right to left, Bonus Bets and Pai Gow Bets will be settled for Hand 1, the same process will continue for hands two and three.

A 5% commission will be taken on all winning Pai Gow Poker hands. No commission will be taken on winning Bonus Bets.

Players that have a qualifying bonus hand(s) will be paid according to the following pay schedule.

5 Aces	500 to 1
Royal Flush	200 to 1
Straight Flush	50 to 1
St. Flush with Joker	30 to 1
Four of a Kind	25 to 1
Full House	5 to 1
Flush	4 to 1
Three of a Kind	3 to 1
Straight	2 to 1

Players will be paid their bonus money even if the dealer beats their hand.
