Heads Up Tournament Structure Written Procedures

Definition:

In a Heads Up tournament, players are pitted against one opponent at a time in a bracket style system. The winner of each one on one, or heads up, match moves on to the next level of the bracket, while the loser is eliminated from the tournament.

Object of the Game:

Players will attempt to survive a series of heads up matches to advance in the tournament.

Rules of the Game:

Upon entry, a player will be randomly given a position on a bracket, similar to the NCAA tournament's bracket, except without a ranking system.

If there is not an exact factor of 2 (2, 4, 8, 16, 32, 64 etc...) number of players in the field, byes will be handed out randomly to an appropriate number of players to make a functioning bracket system.

Tournament rules will remain consistent with all NHCG current tournament rules.

Players will be made aware of the prize pool distribution, and rules and regulations of the room by posted material on bulletin boards.

All players will begin the tournament with 5,000 tournament chips. These chips have no cash value.

A maximum field of 64 players will be allowed entry into the tournament.

Equipment to be used:

Each dealer will be issued starting chips for two players, a deck case consisting of two different colored decks of cards, a cut card and a button. As there will be no rebuying options for the players, there will be no rebuy sheets or rebuy chips at the tables.

Method of Play for the Games:

Like any bracket system, this tournament will be conducted in a series of rounds. For all rounds, blinds will last ten minutes. The blinds for each round will follow NHCG standard blind structure from the point which they start.

Round One: Players begin with 5,000 tournament chips, blinds start at 25/50
