

Let it Ride with 6 Card Bonus

Game Objective:

Let it Ride is three games consisting of 3 wagers(1, 2, \$), Pair Plus, and 6 Card Bonus. The object of the 3 Let it Ride wagers is to compile the highest 5 card poker hand(containing at least a pair of tens) from three dealt cards and two community cards while keeping the maximum bet on the table. The object of the Pair Plus game is simply to bet on whether you will receive a 3-Card Poker hand with any pair or better. The object of the 6 Card Bonus is to use both the Dealer and Player hands and make the best 5 card poker hand possible. The Player may bet on either or all of the games for any amount within the posted table limit.

Game Rules:

1. Player makes a Let it Ride and/or Pair Plus and/or 6 Card Bonus bet. Player makes three equal bets in the three circles marked '1', '2', and '\$' right to left. The dealer deals three cards to each player and then three community cards(middle card is six card bonus bet), face down, to himself.
2. After the player looks at his three cards, he may cancel his bet in Circle 1 by signaling the dealer to push it back to him, or he can 'Let it Ride' and stay in play. Once the player chooses to let a bet ride it must stay on the table until the end of the hand. Likewise when a bet is withdrawn, it stays out of play.
3. The dealer then turns one of his two cards face up. The player can now take his Circle 2 bet back or he can let it ride. His Circle 1 decision does not restrict his Circle 2 option in any way. After the player makes his Circle 2 choice the betting is over because the \$ Circle bet always stays in play.
4. The dealer then completes all players' hands by turning his second card face up.
5. At this final stage, if the combined five card hand does not give the player a pair of tens or better, the dealer collects the \$ Circle bets and any others that the players let ride. If any of the players have a pair of tens or better, the dealer pays the \$ Circle bet and any others left in play, in accordance with the payout table attached.
6. If the player has made the Pair Plus wager and their hand contains a pair or better the player wins the Pair Plus wager, regardless of the dealer's hand. Pair Plus payouts are attached.
7. If the player has made the 6 Card Bonus wager the dealer reveals the middle card and his hand and player hand is compared and the best 5 card poker hand is established. If the player's hand qualifies for payouts, the player is paid according to the posted pay table attached. If it does not qualify the player will forfeit that wager.
